

Project Assessment

Name: _____

Grade: _____

Create a bird food garland

If your children have ever created popcorn garlands for the Christmas tree, they're going to be champs at putting together bird food garlands. While you can use a variety of materials for this easy garden project, we recommend uncooked cranberries or a variety of dried fruits, both of which are easy to keep on yarn, string or kitchen twine. When the kids are done, simply drape the garland from a tree and watch as the birds arrive.
