

Project Assessment

Name: _____

Grade: _____

Activity:

Use the attention grabber, card game, and have students plant marigold seeds. Over the next four weeks they will:

- place one group of plants in a sunny window and water daily
- place one group of plants in a sunny window and not provide water
- place one group in a dark closet and water daily
- place one group in a dark closet and not water

Use science journals to have students make a prediction regarding what will happen to each group of plants.
