Take their responses and give feedback. <b>Methodology:</b> The goal of a garden for kids should be not only to serve as a teaching tool but also to stimulate the senses. Children are very tactile and respond to color, scent and texture. Instilling a love of gardening and a sense of stewardship requires not only an educational garden but also an alluring, inviting and entertaining one. Even very young children can gain a great deal from a garden. To get a basic understanding for children's garden ideas, this quick kid's guide to gardens can help  Basic Kid's Garden Design It is important to involve children in garden planning from the very beginning. Teaching kids to design a garden is	

a great way to introduce basic gardening principles and also instills a sense of responsibility and ownership.

**Activity:**

Keep your garden design simple; consider planning an interesting shape for your gardens such as a butterfly, triangle or circle.

If the garden is big enough, incorporate a path or small maze through which children can wander. Keep in mind that children are small, so plan your space accordingly and always use “kid-size” structures. Incorporate bird feeders and birdbaths to invite nature into the garden.

**Whimsical Children’s Garden** Consider a fun children’s garden that uses bright colors, both in plantings and in infrastructure. Incorporating children’s art projects into a whimsical garden is a fun way to liven up a garden for kids’ space.

Allow children to make some statues or garden stakes and place them in locations throughout the garden.

Add special features such as the following for even more interest:

Fountains

Pinwheels

Small benches

Tables

Lights

Garden flags

**Planting in a garden for kids should be informal yet neat.**

**Fun plantings for a whimsical children’s garden include:**

Sunflowers

Flowering vines
