

Project Assessment

Name: _____

Grade: _____

Activity: Make a mud pie

All us grown-ups have fond memories of making mud pies and encouraging our family to 'eat' them! Now's the time to introduce your children to the delights of getting really muddy.

Here's our recipe:

Grab an old bowl or garden flower pot,

Add two cups of soil

Add water until its good and mud like.

Get mixing, ideally with your hands (don't worry our Scrub Up hand & face foam for kids is excellent for getting all the mud off later)

Add in half a cup of small twigs, grass or chopped leaves.

Pat down the top until smooth

Decorate with some flower petals and leaves so it looks beautiful

Serve it up to your family!
